

EARTH SYSTEM PHD CONFERENCE 2019

13 – 15 March 2019 @ MPI for Biogeochemistry, Jena

The conference aims to bring together **young researchers** within the broad domain of Earth system sciences – **across spheres, scales and methods!**

>> present your research and broaden your knowledge in 3 thematic and 1 workshop session

>> meet and exchange with your peers during social events and horizontal discussions

NATURAL PROCESSES

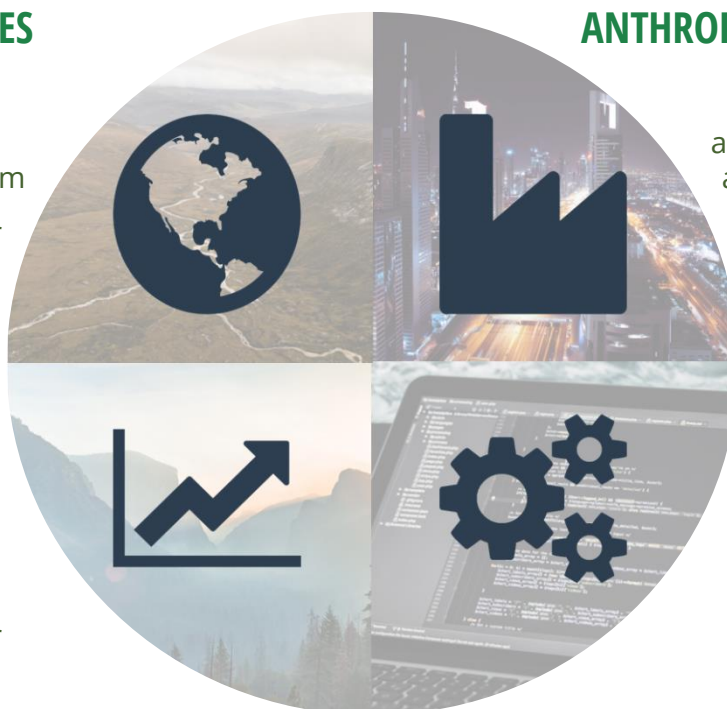

Understanding how natural processes affect the Earth system

with keynote speaker
Dr. Ingrid van der Laan-Luijkx

PREDICTION & VULNERABILITY

Prediction and vulnerability of the Earth system

with keynote speaker
Dr. Natalie Krivova

ANTHROPOGENIC ACTIVITIES

Understanding how anthropogenic activities affect the Earth system

with keynote speaker
Prof. Dr. Markus Reichstein

SKILLS & METHODS

Workshops on skills and methods for Earth system research

with keynote speaker
Dr. Jakob Runge
